## *Deokjinjin Fortress*

### ***Introduction***

Deokjinjin Camp was the scene of fierce battles that took place during Byeonginyangyo (the French invasion in 1866) and Shinmiyangyo (the American invasion in 1871). The battlements and gatehouse of Deokjinjin that had all been destroyed during Sinmiyangyo were restored in 1977. At the Namjangpodae Battery, cannons used by the Joseon military have been reproduced and installed for display.

## Ganghwa Mega Luge

### ***Introduction***

They have 2 luge course each 1.8km and the view from the top is also very nice. We recommend children but just anybody who likes the fun activity.

## Jeondeungsa Temple

### ***Introduction***

Jeondeungsa Temple contains significant architectural works, including the main building Daeungbojeon. Decorated with delicate carvings, it is a superlative example of the architecture of the mid-Joseon Dynasty.

## Ganghwa Peace Observation

### **Introduction**

Ganghwa Hwamunseok, Korea's only rush-weaving handicraft, is a cultural legacy inherited from Goryeo (the ancient Korean state) period, and is a product that is exclusively produced in Ganghwa-gun.

## Hwamunseok Cultural Center

### **Introduction**

Observation point where you can see North Korea closely though binocular.
